Our Mission

The Coastal Bend Community Foundation is a 501(c)(3) nonprofit corporation. The mission of the Foundation is to

- Help meet the charitable and educational needs, and enhance and improve the quality of life in the Coastal Bend area of Texas through grants to charitable organizations
- Serve a wide variety of donors by providing a vehicle for the establishment of various types of funds designed to serve their charitable wishes
- Exercise leadership and advance the cause of philanthropy throughout the area
- Solicit others to partner in providing increased giving to address the ever-growing needs of the Coastal Bend.

The Foundation was established in 1981 by the Corpus Christi Chamber of Commerce with a donation from the Paul and Mary Haas Foundation. Through additional donations and a history of stewardship, these assets have grown to over $62 million. The Foundation has given almost $75 million in grants to charitable organizations and scholarships to students since it was founded. The Foundation serves Aransas, Bee, Jim Wells, Kleberg, Nueces, Refugio and San Patricio counties.

Reasons to Celebrate

A DECADE OF GROWTH ~ Building sustainable enhancement to the Coastal Bend by growing assets and gifts to continue our mission even during economic and natural disasters

As of December 30, 2013, $62.5 million in assets
2013 Number of Funds: 292, including 104 Scholarship Funds
2013 Annual Unrestricted Grants: $715,000
2013 Scholarships Awarded: $642,000
2013 Coastal Bend Day of Giving Matching Funds: $430,000
2013 Coastal Bend Day of Giving through individual online gifts: $823,955

- Effective development of assets
  - Stewardship of investments
  - Maintaining consistent service to existing funds

- Consistent grant awards
  (2008 reflects single fund response to Hurricane Ike; 2009 includes donations from first Day of Giving)
  - Maintaining stable level of funding during financial crisis
  - Addition of Day of Giving
  - Addition of Special Grants

- Growth of annual gifts
  - Cultivation of new donors
  - Growth in referrals & existing funds

- Sustained scholarship awards over $600,000 annually
  - Addition of new funds to available pool
  - Online application simplifies process

As of December 30, 2013, $62.5 million in assets
2013 Number of Funds: 292, including 104 Scholarship Funds
2013 Annual Unrestricted Grants: $715,000
2013 Scholarships Awarded: $642,000
2013 Coastal Bend Day of Giving Matching Funds: $430,000
2013 Coastal Bend Day of Giving through individual online gifts: $823,955
In this first year as chair of the board of directors, it has been gratifying to see the CBCF asset base reach the $60 million milestone, while the gifts continue to increase. Legacy giving has increased, with an outstanding example in Mrs. Carolyn Amim Tinker’s endowed fund. New scholarship funds provide much needed assistance to our local high-achieving students, who represent the future of the Coastal Bend. The remarkable success of the 5th annual Coastal Bend Day of Giving, demonstrates the strong positive impact that the Foundation, in partnership with other local foundations, agencies and individuals, has had in increasing philanthropy within the Coastal Bend especially important during times of economic downturn. An initiative like the Foundation’s “Training for the Trades” program is designed to provide financial help for an overlooked group of students with the objective of creating a skilled, local workforce. The Foundation was instrumental in developing an education initiative for area nonprofits in its “Fundamentals of Fundraising” program so that these other organizations can be more successful in pursuing their objectives, with the Coastal Bend benefiting from their activities.

In celebrating the successes of the past year, I particularly want to recognize the two outgoing Foundation board members for 2013. They represent the strong leadership and generous spirit that are the hallmark of Coastal Bend residents. Each has served the Foundation, and by extension, the Coastal Bend region’s interests, for the maximum time allowed - three terms of three years each. They have provided valuable insights and assistance in developing the Foundation’s assets, guiding its investments and finances, and participating in its scholarship and grants programs. Mr. Fred Nemec, long-time C.P.A. in Nueces County, has generously provided insight and support in representing interests of county residents. He served as treasurer of the board of directors for three years as well as serving on the audit and finance committees for five years, including three years as chair of the finance committee. Mrs. Jean Claire Turcotte, representing residents of Kleberg County, served as secretary and then vice chair of the board of directors, in addition to serving on the scholarship committee for all nine years, including five years as chair. Her expertise in education and student needs has been instrumental in improving the Foundation’s scholarship administration process. We will miss the wit, wisdom and dedicated service of Fred and Jean Claire, and wish them well in their future endeavors, both personal and philanthropic. We extend our deepest thanks and appreciation to them for their contribution to the continued growth and success of the Foundation and know they will continue to support its future efforts.

While celebrating the achievements of 2013, I look forward to increased growth for the Foundation in 2014, and continued development of partnerships and collaborative efforts to bring improved quality of life in the area, through arts, education, environment, health and human services. Whatever your passion may be, I hope you will consider how you can contribute your time and resources to help the Foundation improve that aspect of life in the Coastal Bend!
What a year 2013 has been for the Coastal Bend Community Foundation!

After exceeding the $50 million asset mark for the first time in 2012, the Foundation’s assets are now in excess of $62 million. This year gifts to the Foundation almost doubled – from $5.9 million to $9.4 million. This increase to our community endowment allows for more grants and additional scholarships to be made – helping to provide funding for human services, families, children, arts, environment, medical, and other needs, plus educational opportunities for deserving students. In our 32 years, nearly $75 million has gone into our community.

In its fifth year, the Coastal Bend Day of Giving exceeded $1.25 million in funds raised for 30 core/basic needs charities. The matching fund pool provided by 16 donor organizations exceeded $430,000 – more than the entire amount raised in matching funds and online donations of the very first Coastal Bend Day of Giving in 2009. November 12, 2013 proved to be an amazing, remarkable, and unprecedented day for our community. As the November 15th Corpus Christi Caller-Times editorial about this year’s Day of Giving stated, “This community is blessed.”

These milestones reflect a couple of things about the Coastal Bend of Texas. First, we have many generous, philanthropically-inclined friends and neighbors. Second, when we work together, we can accomplish tremendous good.

Partnerships are a theme of this year’s annual report. At its core, all of the work that the Coastal Bend Community Foundation does is the result of partnerships. We are comprised of almost 300 different funds that provide either designated or unrestricted support for local charitable and educational endeavors. These funds have many different donors that when brought together enable the Foundation to award non-profit and scholarship grants that improve the quality of life in the Coastal Bend.

This year we were able to initiate a special grant of $100,000 -- our “Training for the Trades” scholarship initiative with Coastal Bend College, Craft Training Center and Del Mar College where over 50 students were able to take courses toward certificate programs in non-associate/non-bachelor degree programs at these three institutions. Our desire is to increase the skill levels necessary for the local workforce, and at the same time to provide a mechanism for those individuals to secure better paying jobs and a brighter future for themselves and their families.

Additionally, we continued annual grant distributions of $715,000 to area non-profits and 2013 scholarship awards of over $640,000 to deserving students to go to college. This is accomplished through the partnership that the Foundation’s Board of Directors has with its staff. Our Board Committees review hundreds of applications and apply their collective judgment to make sure our funding goes to the most worthy and complies with our donors’ intentions.

Thank you for an amazing year, and for your support of our initiatives and programs. We strive always to handle the gifts you entrust to us with the highest ethics and integrity, and provide exemplary stewardship. For without our partnership with you, the Coastal Bend Community Foundation would not be able to improve the quality of life in the Coastal Bend.
2013 Charitable Organization Program Reserve Funds or Endowments

Agency Endowments are funds held by the Foundation for another nonprofit organization. The Foundation invests and periodically returns investment income to the organization or reinvests the proceeds. The following is a list of Agency Funds currently held by the Foundation. All are available for donation. Check the Foundation website for online donation to any of these, or other Foundation funds during the first quarter of 2014.

- Wheaton College
- Witte Museum
New Scholarship Funds

The Foundation is pleased to announce the opening of three new scholarship funds since January, 2012, and all three will begin awarding scholarships in the 2013 – 2014 scholarship process cycle.

Anderson Family Endowed Scholarship

Established as a Permanent Endowed Scholarship by Jim and Jan Anderson, this scholarship is offered in recognition and support of students pursuing careers in the areas of Science, Technology, Engineering and Math (STEM). The scholarship is available to graduating high school seniors, or high school graduates, from any Aransas County high school, planning to attend a public college or university in Texas. The scholarship is based solely on merit, not financial need, and will award $4,000 to the selected student. Recipients of the scholarship will find it is renewable up to four years, providing the student continues to maintain a full time status, meeting a 2.8 GPA in one of the designated fields of study.

E.ON Climate & Renewables North America Higher Education Fund for San Patricio County – Papalote Creek

Established as a Permanent Endowed Scholarship by Papalote Creek II, LLC, this scholarship is offered to students attending or recently graduating from high schools located in the Taft ISD and/or Gregory-Portland ISD in San Patricio County, Texas. Scholarship awards from this fund also require the student to be enrolled as a full-time student at any accredited college, university or trade school.

E.ON Climate & Renewables North America Higher Education Fund for Willacy County – Magic Valley

Established as a Permanent Endowed Scholarship by Magic Valley Wind Farm I, LLC, this scholarship is offered to students attending or recently graduating from high schools located in the Raymondville ISD, Lyford ISD and/or San Perlita ISD in Willacy County, Texas. Scholarship awards from this fund also require the student to be enrolled as a full-time student at any accredited college, university or trade school.

NOTE: All three scholarship funds accept donations, and will award additional scholarships as donor gifts and growth of the fund permit.

Scholarship Process

Scholarships fulfill an important mission aspect of the Coastal Bend Community Foundation, enhancing the quality of life in the Coastal Bend, because they address the long term future by promoting the education of the area’s youth, who will provide tomorrow’s leadership. Scholarship administration constitutes a significant part of the Foundation work flow, involving both the staff and the board members throughout the year.

This year the Foundation featured a streamlined process for the student applicant, with a goal to encourage area students to apply online through a one-time application submittal that matched the applicant with any of nearly 50 scholarships for which they qualified. Student response was excellent, leading Foundation staff and Scholarship Committee to work toward an enhanced process to be piloted in 2014. Key enhancements include

- Website updated with scholarship details
- Improved scoring process
- Improved personal statement /essay process

Online scholarship applications are available on December 15 each year, and must be received (submitted) by March 1 the following year. Applicants are notified of the receipt of their application upon submittal, and receive notification of their award status by the end of May.

In addition to the online scholarships, the Foundation administers over 50 advised scholarships. Students can research these scholarships at the Foundation website www.cbccfoundation.org, by clicking the Scholarships button and selecting “Individual Applications”. Applications for these scholarships are reviewed and evaluated by selection committees outside the Foundation. Staff and Scholarship Committee members monitor and review the selection process and stipulate final approval for the recipients, as well as administering the funds.

Please help us fill all the available scholarships by directing young family, friends and neighbors who are graduating from high school or are current college students residing in the Coastal Bend to scholarship opportunities on our website!
Grants Process Updated

In 2012, significant changes were made in the CBCF grant process:

• Fall grants are now Annual grants, with applications due in June and awards made in September
• Online grant application process for the Annual grants streamlines the process for applicants and CBCF staff, Grants committee and the board
• Special Grant program replaces Spring Grant program, to help fund unique projects that meet community needs in the Coastal Bend

The 2013 Special Grant, “Training for the Trades”, addressed the shortage of skilled laborers in the Coastal Bend that are needed to support the increasing demands of industry in this area. In partnership with Coastal Bend College, Craft Training Center and Del Mar College, $100,000 in scholarships were made available to working area students involved in trade-based or technology studies, to enhance their employability and skills. Enrolled in a diverse area of programs including GPS technology, radiology, CDL certification and welding, 59 students took advantage of the two semester program. All students will apply their skills locally, continuing to enhance lives and improve the quality of life right here in the Coastal Bend!

2013 Grant Program Highlights

What an exciting year for the CBCF Annual grants program! With a record total award of $715,000, much good has already been accomplished. Projects were funded in a broad range of categories, including the arts, education, the environment, family programs, human services and medical needs. All projects help to improve the quality of life in the Coastal Bend, contributing directly to CBCF’s mission.

The arts were prominently represented with grants to both the Corpus Christi and Kingsville Symphony Orchestras to support their opening concerts of the season, including funding in Kingsville to provide local youth the opportunity to attend the concert and related workshops. For the third year, CBCF is also proud to be a sponsor for “Pops in the Park”, the Corpus Christi Symphony’s hugely successful spring concert at Whataburger Field.

Once again, CBCF sponsored the “Texas State Aquarium Dollar Day” held on November 10. This year, attendance set record levels, attracting over 6,250 visitors, with 99% living within 90 minutes of the aquarium. For perspective, the Aquarium usually has 3,000 guests on a busy weekend day in mid-summer! The value to the community was best summed up by Richard Glover, Chief Marketing Officer of the Aquarium, “…hosted a tremendous day for many families who otherwise might not be able to afford to enjoy the Aquarium, and provided an opportunity to educate the public about the value of and protection for the Gulf Coast area ecological resources. Thank you so much for your support…”

CBCF staff also took advantage of the opportunity during Dollar Day to publicize the upcoming Coastal Bend Day of Giving to increase awareness of this signature event supporting charities in the Coastal Bend (see article on page 12 for 2013 results).
Rewarding Outstanding Achievers

FEATURED SCHOLARSHIP RECIPIENT: Carlos Garibay-Garza

Thanks to the generosity and vision of area donors, many outstanding local students are helped each year to achieve their educational dreams with scholarship assistance. Many contribute now and after graduation to the well-being of their communities. Carlos Garibay-Garza shares his story, as one of 2013 scholarship awardees.

Imagine your youth spent living in a different home every year or two, shuffled from parent to parent to grandparent in Texas, Mexico and Michigan. When he returned to Corpus Christi as a high school sophomore, after sustaining a random mugging en route home from school in Mexico, Carlos Garibay-Garza embarked on what he thought was the final phase of his formal education. To his surprise, he took on the academic challenge of the new school, working hard to graduate on time with his class, and found his success led to new hopes and dreams for his future, including college! As a graduate of Miller High School, Carlos distinguished himself by ranking in the top 5% of his class, participating in a mix of extracurricular activities ranging from Theatre Arts to Science Club, and maintained an active membership in the National Honor Society. He is notable for his positive mentorship of peers and willingness to help. An active member of his community church as well, Carlos embodies an attitude of community service. These attributes led him to become a 2013 CBCF Scholarship recipient, and helped him to get a great start to college, and his dream of a career in medicine.

Currently Carlos is completing his freshman year at Texas A&M College Station. He has taken up fencing, an activity in which he has met many friends this first year, and considers it is time well spent when needing a break from his studies. Carlos offers this advice to current college-bound high school students, “Participate in extracurricular activities and to try to take many AP courses, because even though the AP exams are extremely difficult, the classes provide a good foundation of the knowledge you will need for the following four years of college.” We wish Carlos good luck in his continued studies, and are pleased to support this young Coastal Bend citizen as he works to improve the quality of his, and others, lives.

FEATURED GRANTEE: Service Area Boys & Girls Clubs

CBCF has a long history of grant support for the Boys & Girls Club organizations located in the Foundation’s 7-county service area, dating back to 1983, just two years after the Coastal Bend Community Foundation was incorporated. Early grants during the 1980s were typically awarded for the purchase of office equipment and furnishings, generally funded at under $1000 to help the organization improve access for area youth.

Very quickly, the successes of the programs grew. The 1990s saw grants for computers & technology, sports & recreational, and after school & educational programs. Grant amounts multiplied as well, to accommodate the larger price tags and the ambitious programming efforts of the dedicated staff and volunteers, now typically averaging $5,000 – $7,500 per grant. Meanwhile, the energy and enthusiasm spread to other communities.

Today, Boys & Girls Clubs are active in Alice, Beeville, Corpus Christi, Kingsville, Refugio, Robstown and Taft; representing 6 of the 7 counties served by CBCF. Recent grants have been awarded for programs that include:

- Math/science curriculum and extra tutoring/homework/computer assistance to improve academic success
- Music lessons to develop discipline and an appreciation of the arts
- “Triple Play”, a program that takes a holistic approach to educating youth about good nutrition, making physical fitness a daily practice and developing good character.

Since the $3,659 total grants awarded in the decade of 1980-89, a total of $679,400 has been awarded to the various area Boys & Girls Clubs, forging a powerful partnership that serves the needs of our community youth. By contributing support to the education, physical and emotional well-being of area youth, the Coastal Bend Community Foundation continues to work to improve the quality of life in the Coastal Bend with a strong view toward a vibrant future.
Partners in Nonprofit Education

The Coastal Bend region is fortunate to have many dedicated and talented volunteers working to enhance the quality of life in our communities through working in the fields that are their personal passions – from improving the ecology and environment to providing arts and music to enhancing the opportunities for students, the elderly or literacy. Working in the nonprofit sector offers different challenges from the “for profit” environment, and nurturing the volunteers who do so much for our community is vital to continuing and improving the effectiveness of these efforts.

This fall, several partner foundations provided grant funding to the Coastal Bend Community Foundation to develop and host the first of a series of ongoing nonprofit education workshops. “Fundamentals of Fundraising for Nonprofit Organizations” was a day-long training seminar presented by Karen E. Osborne, President of The Osborne Group, New York, and attended by almost 200 nonprofit executives and volunteers from the Coastal Bend region.

Using wit, wisdom and vast stores of personal experience, Mrs. Osborne inspired those in attendance to reevaluate their present fundraising approach. Exhorting attendees to recall their own passion for their particular cause, she shared key fundraising approaches.

- Be passionate about your cause, express it clearly, and seek donors who share that passion
- Use your [limited] fundraising time and resources wisely; evaluate the economics of your events and discard “non-profitable” events
- Don’t be afraid to GROW your donor base, your outreach, your board (but make sure they are vested in the organization)
- Plan fundraising efforts strategically over the years – set short-term and long-term objectives
- Remember to THANK donors with specific instances of the results of their generosity

This workshop was underwritten with generous funding from the Blanche Davis Moore, Ed Rachal and Earl C. Sams Foundations. We salute them for their foresight in enhancing the important nonprofit sector of our community, and value their partnership. The “Fundamentals of Fundraising for Nonprofit Organizations” Workshop presentation can be viewed at the CBCF website, www.cbcfoundation.org.

Visit the Coastal Bend Community Foundation website home page for upcoming educational events and seminars www.cbcfoundation.org
Partnering for Success: 2013 Coastal Bend Day of Giving

The 5th Coastal Bend Day of Giving held November 12, 2013 exceeded the four previous Days of Giving beyond all expectations. In a single 24-hour period, $1,254,000 was raised to support the work of 30 local nonprofits that provide services to Coastal Bend residents most in need of assistance. Previously, a total of $2.6 million had been raised since the initial Day of Giving was held in 2009. This year, half that total was delivered in one day!

Each year, Coastal Bend residents have responded in increasing numbers to help their friends and neighbors. In 2009 the first Day of Giving was held, with nine local foundations providing a match amount of $152,000 for 25 local charities. In 2013, 16 local foundations provided a match of $400,000 for 30 participating local nonprofits. Indicative of the generosity demonstrated this year, Mrs. Nova Herin visited the offices of CBCF the morning of the Day of Giving to add $30,000 to the match amount!

Coastal Bend Day of Giving, initiated in 2009 to address the increasing needs and drop in donations during the economic downturn of the late millennial years, is the single fundraising event hosted by the Coastal Bend Community Foundation. The continued success of this single Day of Giving each year demonstrates the power of partnership and collaboration – on the part of the nonprofit agencies who work hard to raise awareness, our partner foundations generously providing the matching funds, the community members responding so generously to help their neighbors, and local organizations helping promote awareness.

This year we were particularly fortunate to have strong promotional support from KIII-TV and the Corpus Christi Caller Times. Noting that individual contributions increased from 3,906 in 2012 to 5,234 in 2013, CBCF President Karen Selim observes “The number of new donors demonstrate the increased awareness of philanthropy in our community, speaking directly to our mission as a Community Foundation. This is made possible by the tremendous support and collaboration of our partner foundations, and civic-minded organizations and individuals in the Coastal Bend whose generosity is infectious and most wonderful!”

Almost $3.9 Million Invested in the Coastal Bend!

In November 2009, nine area Foundations initiated a COASTAL BEND DAY OF GIVING, a matching gift program in response to the dramatic increase in need for food and shelter in the Coastal Bend. Additional, even more successful Days of Giving were held in 2010, 2011, 2012 and 2013. The five events, each only 24 hours in duration, have raised almost $3.9 million for nonprofits providing basic services to the needy. The 2014 event is scheduled for November 18.

A Unique Solution to Community Needs
- Helped thousands of residents
- Raised much needed funds at very low cost to nonprofits
- Strengthened nonprofits through new donor recruitment and new volunteers

An Effective Response
- Achieved greater donor impact than possible individually
- Introduced new donors to philanthropy – in every event, the number of donations under $100 was over 75% of total donations

2014 COASTAL BEND DAY OF GIVING!
Mark your calendars for the sixth Coastal Bend Day of Giving. It will take place on Tuesday, November 18, 2014. Visit www.coastalbenddayofgiving.org or follow us on Facebook or Twitter for updates.
Legacy Giving: Carolyn “Bunny” Arnim Tinker

The benefits of giving are many, including the pleasure and satisfaction of improving your community in an area of interest to you – the arts, cultural heritage, the environment – or helping future area leaders through scholarship assistance. How wonderful to be able to give generously of our time, energy and expertise during our lifetime, and see the benefits directly. Another very special type of giving, legacy giving, outlasts our time on earth and makes a positive community impact in perpetuity.

Carolyn Margaret Arnim Tinker, known to her friends as “Bunny”, was born on August 27, 1940 to Dr. Landon C. and Madeleine Martin Arnim. Attending Menger Elementary, Wynn Seale Middle School and W.B. Ray High School in Corpus Christi, Bunny went on to receive her Bachelor of Fine Arts degree from the University of Texas, where she was a member of Kappa Alpha Theta. She also attended school at the University of Hawaii, and Tulane University, for summer school. As a stockbroker with Paine Webber, Bunny worked in Corpus Christi, Houston and in New York, where she was the first woman to “walk the floor” of the New York Stock Exchange. While with Paine Webber, Bunny also directed the “back office” for the firm on Wall Street – a remarkable professional achievement.

A lifelong friend of the Coastal Bend, Bunny was active both in Nueces County and Corpus Christi Area Historical Societies as well as the City Landmark Commission. She received the Kilgore History Award. A member of the Athenian Club, Corpus Christi Town Club and former member of the Junior League, Bunny was also an active member of the Episcopal Church of the Good Shepherd where she served as the Directress of the Altar Guild and a member of the Vestry. She also served as past president of the Corpus Christi Drug Abuse Council.

Bunny was passionate about the arts, and a talented artist in her own right – including having had a sculpture featured on the cover of Alcalde Alumni magazine. She also loved to travel across her home state of Texas, following the back roads and visiting many small towns – even “ghost” towns, delighting in the antique shops and visiting historic hotels, churches or courthouses where she sought out stained glass or a hammered tin ceiling that she had read about. A close friend, Celia Sexton Tate, recalled a trip to Hope, Texas where some of Bunny’s relatives came from. While the town no longer exists, they were able to find the area and locate several markers to make sure they had located the right spot.

She was an avid recycler, “before the practice was in vogue” reports Tate, whose daughter was christened in a gown of over 100 years old that Bunny found and refurbished as a gift to her. Bunny lived in an old family home that had been turned into apartments, but she later renovated and reclaimed as her residence. She loved to cook and is remembered for her enthusiastic and careful planning of elaborate dinner parties; investing time and care in the details of the place settings as well the menu and guest arrangements.

Carolyn “Bunny” Arnim Tinker passed away on February 6, 2011, leaving a portion of her estate to the Coastal Bend Community Foundation as beneficiary. The Foundation, in accordance with her wishes, has established an endowed Memorial Fund in the name of the Arnim Brothers, to be used to fund charitable causes as directed through her will.

The Foundation's 2012 audited financial statements prepared by Kirk, Monroe & Klostermann, L.L.P. are available upon request or on our website www.cbcfoundation.org.

The foundation also receives income from approximately $1 million not included in assets.

Program expenses are directly allocable to investments, investment fees, real estate and mineral rights, and expenses incurred by special project funds.

Support expenses are the general operating expenses of the foundation.
The Coastal Bend Community Foundation has been giving back to the community since shortly after its formation in 1981. We assist donors to give grants and scholarships that help Coastal Bend residents improve their lives and the lives of the people around them. The Foundation looks to the future to better prepare for the growing needs of our ever-changing community. We have grown tremendously in the past 32 years thanks to the generosity of our donors. We plan to continue to grow and to give for as long as the community and our nonprofit partners need us.
